Executive AI Workshop: What Airport Executives Need to Know Now

The greatest barrier to AI in aviation isn't the technology. It's leadership.

Kick off the conference with an exclusive, high-impact workshop designed specifically for airport leaders, board members, and senior aviation executives.

While the industry fixates on the capabilities of Artificial Intelligence, the true differentiator for future-ready airports isn't the technology itself, it is the leadership, governance, and culture behind it.

This interactive session will focus on how airports can successfully prepare for AI adoption through strong leadership, workforce transformation, governance, and strategic planning — beyond the technology itself. Through expert insights and collaborative discussions, participants will explore practical approaches to building AI-ready airport organizations and preparing teams for the future of aviation.

Topics Include:

- *Why AI initiatives succeed or fail*
- *Building an AI-ready airport culture including workforce reskilling and leadership strategies*
- *Holistic incorporation of AI throughout the organization's strategies, operations and management processes*
- *Governance, regulatory issues, and implementation planning*
- *Practical AI roadmap strategies for airports*

The workshop will conclude with key insights and recommendations shared in a post-session executive summary paper. Participants will receive an Executive Workshop Certificate.

- 11:15-12:15 p.m. **IAAE Board Meeting** *(closed)*

Keynote Address

The Transatlantic Aviation Outlook: Growth, Risk, and Strategic Opportunity

A high-level strategic outlook on the future of transatlantic aviation, examining how geopolitical dynamics, economic uncertainty, and evolving airline strategies are reshaping connectivity between Europe and North America. The keynote will explore the implications for hub competitiveness, infrastructure investment, and long-term growth.

Speaker:

Mr. Zdeněk Jelínek (TBC)
Director of the Civil Aviation Department
Ministry of Transport

10:10-10:55 a.m.

SESSION 1 — Opening Leadership Dialogue & Vision 2035: Strategic

Leadership for Airports – *A forward-looking session for airport CEOs, examining how leaders can navigate disruption and shape the future of aviation. Panelists will discuss strategic decision-making, long-term airport planning, investment priorities, and organizational transformation. The dialogue will also touch on Europe–North America connectivity, airline partnerships, workforce development, and emerging technologies such as AI and digital transformation — providing actionable takeaways for guiding airports through uncertainty and positioning them for sustainable growth.*

Sponsored by AAAE Past Chairs

Moderator:

Balram “B” Bheodari, A.A.E, IAP (TBC)

SESSION 6—The Intelligent Airport Ecosystem: AI, Automation and Smart Infrastructure- / AI-Driven Airport Operations: From Data to Decisions -

Airports are evolving rapidly through AI-driven operations, automation, smart terminals, IoT-enabled infrastructure, and predictive maintenance. This session explores how these technologies enable smarter, faster, and more efficient decision-making across the airport ecosystem. Panelists will share lessons from real-world implementations, highlighting how airports can improve efficiency, enhance infrastructure resilience, optimize passenger experience, and build intelligent, future-ready operations. Strategic considerations will include digital transformation, investment priorities, public-private partnerships, and scaling innovation — providing a comprehensive view of how airports are preparing for the future.

10:20-11:10 a.m. **SESSION 7- Advanced Air Mobility & Vertiports: Defining the Airport Role-**
Advanced Air Mobility (AAM) is moving rapidly from concept to reality, creating exciting opportunities and challenges for airports. This session examines how eVTOL aircraft, vertiports, and new airspace management systems can integrate into the existing aviation ecosystem. Panelists—including emerging operators and infrastructure leaders—will share real-world insights on early deployments, operational challenges, and collaboration with airports. The discussion will also explore infrastructure requirements, regulatory frameworks in Europe and North America, and the commercial realities of scaling AAM, while assessing its potential impact on airport

capacity, connectivity, and the passenger journey.
